ABOUT THE COURSE

This course will provide an overview of key critical care competencies that make up the national certification examination in critical care nursing (CNCC-C) and provide the basis for critical care nursing practice. This course is of benefit to nurses or paramedics working in critical care who are seeking a review of core competencies, or who are preparing to become certified (or recertified) in critical care nursing. This course is a review; content is geared to individuals with prior or current critical care experience.

The course content is based on the 6 session in-classroom review that has been offered by the instructor for many years. The curriculum has been adapted to facilitate online access.

COURSE REQUIREMENTS

This course is available only to individual registrants. Participants require a computer with audio and video capabilities. All classes will be offered virtually as live presentations; each class will be available to registrants for a period of one week to accommodate shift work schedules.

CONTINUOUS LEARNING HOURS

Participants will receive 36 hours of Continuous Learning Hours that can be used by certified nurses toward recertification of CNCC(C).

HANDOUTS

Registered participants will be provided with a link for course handouts.

CERTIFIED NURSE IN CRITICAL CARE (CANADA)

For information on how to become certified in critical care nursing in Canada, please go the Canadian Nurses Association website <https://www.cna-aiic.ca/en>.

PROGRAM INSTRUCTOR

Brenda Morgan has been a critical care nurse for more than 41 years, and has over 37 years of teaching experience. She currently works as a Clinical Nurse Specialist in the Critical Care Trauma Centre, London Health Sciences Centre. Brenda has spoken on a variety of critical care topics: locally, nationally and internationally.

Brenda is a former President of the Canadian Association of Critical Care Nurses (CACCN) and has chaired or been a planning committee member for 5 of CACCN's national conventions. She continues to participate in CACCN activities at a national and local level. A past item-writer and member of the Canadian Nurses Association CNCC(C) examination committee, Brenda is the author of the certification study guide that is available to CACCN members.
